

Council

Distr.: General
25 February 2013

Original: English

Nineteenth session

Kingston, Jamaica
15-26 July 2013

Report and recommendations of the Legal and Technical Commission to the Council of the International Seabed Authority relating to an application for the approval of a plan of work for exploration for cobalt-rich ferromanganese crusts by Japan Oil, Gas and Metals National Corporation

I. Introduction

1. On 3 August 2012, the Secretary-General of the International Seabed Authority received an application from the Japan Oil, Gas and Metals National Corporation (JOGMEC) for the approval of a plan of work for exploration for cobalt-rich ferromanganese crusts in the Area (see ISBA/19/LTC/4). The application was submitted pursuant to the Regulations on Prospecting and Exploration for Cobalt-rich Ferromanganese Crusts in the Area (ISBA/18/A/11, annex). The application covers a total surface area of 3,000 square kilometres, located to the east of Minami-Torishima Island in the Western Pacific.

2. In accordance with regulation 22 (c) of the Regulations, by a note verbale dated 28 August 2012, the Secretary-General notified the members of the International Seabed Authority of the receipt of the application and circulated information of a general nature concerning the application. The Secretary-General also placed consideration of the application on the agenda of the meeting of the Legal and Technical Commission held from 4 to 8 February 2013.

II. Methodology for consideration of the application by the Legal and Technical Commission

A. General methodology applied by the Commission in consideration of the application

3. In its consideration of the application, the Commission noted that, in keeping with the scheme established in article 6 of annex III to the United Nations Convention on the Law of the Sea, it was first required to make an objective

determination as to whether the applicant had fulfilled the requirements contained in the Regulations, particularly with respect to the form of applications; whether the applicant had provided the necessary undertakings and assurances specified in regulation 15; and whether it had the necessary financial and technical capability to carry out the proposed plan of work for exploration. The Commission is then required to determine, in accordance with regulation 23, paragraph 4, whether the proposed plan of work will provide for effective protection of human health and safety and effective protection and preservation of the marine environment and will ensure that installations are not established where interference may be caused to the use of recognized sea lanes essential to international navigation or in areas of intense fishing activity. Regulation 23, paragraph 5, provides that, if the Commission makes the determinations specified in paragraph 3 of regulation 23 and determines that the proposed plan of work for exploration meets the requirements of paragraph 4, the Commission shall recommend approval of the plan of work for exploration to the Council.

4. In considering the proposed plan of work for exploration for cobalt-rich ferromanganese crusts, the Commission took into account the principles, policies and objectives relating to activities in the Area as provided for in part XI and annex III of the Convention and in the Agreement relating to the implementation of Part XI of the United Nations Convention on the Law of the Sea.

B. Consideration of the application

5. The Commission considered the application in closed meetings on 4, 6 and 7 February 2013.

6. Prior to commencing a detailed examination of the application, the Commission invited the applicant's representative, Yoshiyuki Kita, Deputy Director-General of JOGMEC, to make a presentation of the application. The following members of the delegation made statements: Keita Koda, Deputy Director; Akira Usui, Chair of the JOGMEC committee on cobalt-rich ferromanganese crusts; and Yoshihisa Shirayama, Executive Director of Research at the Japan Agency for Marine-Earth Science and Technology (JAMSTEC). In their questions and comments, members of the Commission commended the applicant on its presentation and asked legal, technical and environmental questions to elicit further details of the application before convening in closed session to examine the application in detail.

III. Summary of basic information regarding the application

A. Identification of the applicant

7. The name and address of the applicant are as follows:

- (a) Name: Japan Oil, Gas and Metals National Corporation (JOGMEC);
- (b) Street address: Toramon Twin Building, 2-10-1, Toranomon, Minato-ku, Tokyo 105-0001, Japan;
- (c) Postal address: as above;

- (d) Telephone number: +81-3-6758-8000;
- (e) Facsimile number: +81-3-6758-8008;
- (f) E-mail address: isa-jogmec@jogmec.go.jp.

8. The applicant's designated representative is:

- (a) Name: Hiromu Kawano, President of JOGMEC;
- (b) Street and postal addresses: as above;
- (c) Telephone number: +81-3-6758-8030;
- (d) Facsimile number: +81-3-6758-8060;
- (e) E-mail address: as above;
- (f) Place of registration and principal place of business/domicile: 2-10-1 Toranomon, Minato-ku, Tokyo, 105-0001, Japan.

9. The applicant provided a certified copy of its certificate of registration as of 6 June 2012. The applicant states that it is a State enterprise, established under Law No. 94, 2002, which implements national policies on securing natural resources and energy as an agency of the sponsoring State, and is the sole organization undertaking exploration for oil, gas, hydrate methane and cobalt-rich ferromanganese crusts. Its activities relate to resource exploration and evaluation, financing mineral resources projects, research and development in mining, stockpiling oil, gas and rare metals, marine pollution control and environmental preservation measures.

B. Sponsorship

10. The sponsoring State is Japan. The sponsoring State enacted the 1982 Act on interim measures for deep sea mining and its ordinance.

11. The date of deposit of the sponsoring State's instrument of ratification of the United Nations Convention on the Law of the Sea and date of its consent to be bound by the Agreement relating to the implementation of Part XI of the Convention is 20 June 1996.

12. The certificate of sponsorship is dated 26 July 2012; it was issued by Hiroshi Yamaguchi, Permanent Representative of Japan to the International Seabed Authority.

13. The certificate of sponsorship states that the nationality of the applicant is Japanese and that the sponsoring State sponsors the applicant in accordance with paragraph 2 (b) of article 153 of the United Nations Convention on the Law of the Sea and paragraph 4 of article 4 of annex III to the Convention and subject to its relevant national laws and regulations.

C. Area of application

14. The area comprises 150 blocks, each with an area of 20 square kilometres, and is located over six seamounts. The blocks are grouped into eight clusters, each containing 5 to 40 contiguous blocks. Each block is rectangular in shape, measuring

five kilometres from east to west and four kilometres from north to south. All the blocks are located entirely within a geographical area measuring not more than 545 kilometres from east to west and 550 kilometres from north to south, or 299,750 square kilometres. The coordinates and general location of the area under application are shown in the annexes to the present document. This is in compliance with regulation 12.

D. Other information

15. The applicant has not been previously awarded any contract with the Authority.
16. The application included a written undertaking dated 26 July 2012 and signed by the designated representative of the applicant in accordance with regulation 15. This was superseded by a written undertaking dated 28 July 2012 and also signed by the designated representative of the applicant.
17. The applicant elects to offer an equity interest in a joint venture arrangement in accordance with regulation 19.
18. The applicant has paid a fee of \$500,000 in accordance with regulation 21.

IV. Examination of information and technical data submitted by the applicant

19. The following technical documents and information were provided:
 - (a) Information relating to the area under application:
 - (i) Charts of the location of the blocks;
 - (ii) A list of the coordinates of the blocks under application;
 - (b) A certificate of sponsorship;
 - (c) Information to enable the Council to determine whether the applicant is financially capable of carrying out the proposed plan of work for exploration;
 - (d) Information to enable the Council to determine whether the applicant is technically capable of carrying out the proposed plan of work for exploration;
 - (e) Plan of work for exploration;
 - (f) Training programme;
 - (g) Written undertakings by the applicant.

V. Consideration of financial and technical qualifications of the applicant

A. Financial capacity

20. The applicant declared its financial capacity to carry out the proposed plan of work for exploration and fulfilled its financial obligations to the Authority. In

evaluating the financial capacity of the applicant, the Commission noted that the applicant provided a financial statement dated 6 July 2012 and duly signed by Yukio Edano, Minister of Economy, Trade and Industry of Japan, certifying the financial capability of the applicant to implement the proposed plan of work. The applicant also provided copies of its audited financial statements, including balance sheets and profit-and-loss statements, for the most recent fiscal years (2008, 2009 and 2010). The applicant stated that it would not make any borrowings to finance the proposed plan of work for exploration.

B. Technical capacity

21. The applicant stated that while it had not held any previous contracts with the Authority, it had been the sole Japanese government institution responsible for exploring for deep-sea resources since 1975 and had been conducting studies of cobalt-rich ferromanganese crusts in the Japanese exclusive economic zone and the Area since 1987.

22. In evaluating the technical capacity of the applicant, the Commission noted that the applicant had provided extensive details concerning its technical capabilities, including details of past research cruises associated with cobalt-rich ferromanganese crust studies, research and development of processing and metallurgy for cobalt-rich ferromanganese crusts and a preliminary environmental baseline survey in the application area from 1997 to 2010. The applicant has selected 150 blocks mainly on the top of seamounts where cobalt-rich ferromanganese crusts are not buried in sediments. The applicant stated that it would follow a precautionary approach and would collect the necessary environmental information from the planning stage of the exploration work, in order to comply with the draft environmental management regulations regarding deep-sea floor minerals developed by the International Marine Minerals Society. The applicant indicated that the environmental studies of impacts would focus on the identified mining areas and their surroundings, including the potential disturbance of the environment on the slopes deeper than the mining area. The studies will also focus on identifying the biota source region which will enable recolonization to take place and ensure that there is no irreversible damage to ecosystem structure and function. The applicant also stated that it would follow any recommendations issued by the Legal and Technical Commission and further developments concerning environmental impact assessments. The applicant mentioned that it had signed an agreement with JAMSTEC enabling the facilities of JOGMEC or JAMSTEC to be used, depending on the requirements.

23. The applicant provided information related to the prevention, reduction and control of hazards and possible impacts to the marine environment. The applicant stated that the proposed activities were not expected to cause any substantial pollution or significant or harmful changes to the marine environment, but should it become apparent that there might be impacts, they would be evaluated at that time. The applicant provided details of environmental mitigation measures to prevent, reduce and control pollution of the marine environment and other hazards.

VI. Consideration of data and information submitted for approval of the plan of work for exploration

24. In accordance with regulation 20 of the Regulations, the application includes the following information for approval of the plan of work for exploration:

- (a) A general description and a schedule of the proposed exploration programme, including the programme of activities for the immediate five-year period, such as studies to be undertaken in respect of the environmental, technical, economic and other appropriate factors that must be taken into account in exploration;
- (b) A description of the programme for oceanographic and environmental baseline studies in accordance with the Regulations and any environmental rules, regulations and procedures established by the Authority that would enable an assessment of the potential environmental impact of the proposed exploration activities, including, but not restricted to, the impact on biodiversity, taking into account any recommendations issued by the Legal and Technical Commission;
- (c) A preliminary assessment of the possible impact of the proposed exploration activities on the marine environment;
- (d) A description of proposed measures for the prevention, reduction and control of pollution and other hazards, as well as possible impacts, to the marine environment;
- (e) Data necessary for the Council to make the determination it is required to make in accordance with regulation 13, paragraph 1, of the Regulations;
- (f) A schedule of anticipated yearly expenditures in respect of the programme of activities for the immediate five-year period.

25. The Commission was fully satisfied that the information presented met the requirements of the Regulations and noted that it looked forward to the submission of reports, including relevant data, by the applicant as required by the Regulations and any recommendations for guidance to be issued by the Commission in due course. The Commission also acknowledged with appreciation that the applicant's representatives had indicated their willingness to provide the Authority with access to extensive data sets from survey and exploration of cobalt-rich ferromanganese crusts conducted by the applicant over many years.

VII. Training programme

26. The applicant stated that it had a good track record in technical capacity-building in developing countries and in cooperation with the Secretariat of the Pacific Community and the Japan International Cooperation Agency. The applicant indicated that in cooperation with JAMSTEC and universities it would offer training programmes on topics relating to the exploration for and development of marine resources, such as exploration technology, mining and processing technology, marine science, environmental management and mining pollution protection, with the aim of transferring related technologies to developing States. For the training programmes for engineers from the Authority and developing States, the facilities and equipment of either the applicant or JAMSTEC would be utilized depending on

the content of the programmes. The applicant further stated that the content, including the number of trainees, timing and organizational structure of the training programmes, would be designed in consultation with the Authority and the sponsoring State.

VIII. Conclusion and recommendations

27. Having examined the particulars submitted by the applicant, which are summarized in sections III to VII above, the Commission is satisfied that the application has been duly submitted in accordance with the Regulations and that the applicant:

- (a) Has complied with the provisions of the Regulations;
- (b) Has given the undertakings and assurances specified in regulation 15;
- (c) Possesses the financial and technical capability to carry out the proposed plan of work for exploration.

28. The Commission states that none of the conditions in regulation 23, paragraph 6, of the Regulations apply.

29. The Commission is satisfied that the proposed plan of work for exploration will:

- (a) Provide for effective protection of human health and safety;
- (b) Provide for effective protection and preservation of the marine environment;
- (c) Ensure that installations are not established where interference may be caused to the use of recognized sea lanes essential to international navigation or in areas of intense fishing activity.

30. Accordingly, pursuant to regulation 23, paragraph 5, of the Regulations, the Commission recommends to the Council approval of the plan of work for exploration submitted by JOGMEC.
