2	24	Consider including ISO 14001 in the list of recommended ISO standards and
_	24	guidance.
4	50	Perhaps the scope should be expanded to include cargo vessels that
		transport material to and from the mining site, or there could be a
		requirement that only cargo vessels with appropriate safety management
		procedures be used.
7	142-	There seem to be some discrepancies between Figure 2 and the description
'	146	provided in Clause 15.
	140	provided in cidade 13.
