1. Name(s) of Delegation(s) making the proposal:

ITALY

2. Please indicate the relevant provision to which the textual proposal refers. 46ter

46 ter

3. Kindly provide the proposed amendments to the regulation or standard or guideline in the text box below, using the “track changes” function in Microsoft Word. Please only reproduce the parts of the text that are being amended or deleted.

Regulation 46ter

Environmental monitoring

1. The Contractor, through the Environmental Management and Monitoring Plan required under Regulation 46 bis and 48 shall observe, measure, evaluate and analyse, by recognized scientific methods, the risks or effects of pollution and other hazards to the marine environment of the mining operation following the approval of the Plan of Work. It shall keep under surveillance the effects of the mining operation to determine whether it is likely to have unforeseen harmful effects on the marine environment.

2. The Contractor shall cooperate with the Authority and the sponsoring State or States in the establishment and implementation of monitoring programmes.

3. The Contractor shall report annually in writing to the Secretary-General on the implementation and results of the monitoring programme referred to in paragraph 2, in accordance with regulation 38, paragraph 2(g), and shall submit data and information, in accordance with the relevant Standards, and taking into account the relevant Guidelines and recommendations issued by the Commission. The Secretary- General shall transmit such reports to the Commission for its consideration pursuant to article 165 of the Convention.

4. In implementing paragraph 1, the Sponsoring State and Contractor shall maintain consultations, including a system of prior notification, with any coastal State across whose jurisdiction resource deposits in the Area lie, with a view to avoiding infringement of their rights and interests, in accordance with Regulation 4.

4. Please indicate the rationale for the proposal. [150 word limit]

The aim of environmental monitoring includes the prompt detection of any adverse effect on the environment due to either novel impacts that had not been considered in the EIA or expected impacts being more severe than anticipated. The use of the word “unforeseen” instead of “harmful” reflects the need to use an objective approach since “harmful” is necessarily based on a subjective judgment.
