

Workshop on the Development of a Regional Environmental Management Plan for the Area of the Northern Mid-Atlantic Ridge with a focus on Polymetallic Sulphides (PMS) deposits

23-27 November, 30 November – 4 December 2020; Online

PROVISIONAL AGENDA

1. Opening of the workshop
2. Workshop background, scope and expected outputs
3. Review the key outputs from previous workshops on the development of a regional environmental management plan (REMP) in this region, and discuss their implications for designing management approaches and measures
4. Identify spatial and non-spatial management measures for inclusion in the development of a REMP
5. Identify key elements of the implementation of a REMP, including priorities for monitoring and research, collaboration among stakeholders, and capacity development.
6. Summary and conclusion
7. Closure of the workshop
