This provision seems redundant (duplicative of UNCLOS) and so could be deleted. Alternatively, DR3(c) (regarding coordination between the ISA’s and sponsoring states’ monitoring and enforcement measures) could be relocated here. There could also be more specific wording included here regarding the inter-play between the ISA and the State’s regulation. E.g. requiring sponsoring States and the ISA to share monitoring data and Contractor reporting, and to keep each other updated with regards any regulatory measures undertaken.
