A Contractor shall, in accordance with its Environmental Management and Monitoring Plan and these regulations:

(a) Monitor continuously, and report annually under regulation 38 (2) (g) on the Environmental Effects of its activities on the Marine Environment, and manage all such effects as an integral part of its Exploitation activities as set out in the Standards referred to in regulation 45;

4. Please indicate the rationale for the proposal. [150 word limit]

The UK strongly supports that monitoring by the Contractor should be continuous, whereas reporting on environmental effects should be annual in line with obligations under Reg 38. We have added text to 51(a) clarify the language to this effect.
