## ISA Strategic framework

Twenty-fourth session  
Kingston, 2–27 July 2018

**Decision of the Assembly of the International Seabed Authority relating to the strategic plan of the Authority for the period 2019–2023**

*The Assembly of the International Seabed Authority,*

Recalling its decision of 18 August 2017, at the twenty-third session of the International Seabed Authority,<sup>1</sup> to request, *inter alia*, the Secretary-General, in view of the importance of a long-term plan defining the strategic direction and aims of the Authority, to submit a draft strategic plan to the Assembly for consideration at its twenty-fourth session, in 2018, and to regularly inform member States on progress with respect to the plan,

Recalling also that all twenty-nine exploration contracts currently signed by the Authority will be in force during the period of the plan,

Acknowledging the challenges for the Authority raised by the transition from exploration to exploitation,

Emphasizing the importance of ensuring that the strategic plan is kept under regular review and the results monitored for effectiveness,

1. Adopts the strategic plan of the International Seabed Authority for the period 2019–2023, as contained in the annex, which provides a uniform basis for the strengthening of existing working practices of the Authority;

2. Invites members of the Authority and observers, as well as the organs of the Authority, to support the implementation of the strategic plan;

3. Requests the Secretary-General, as a matter of priority, to prepare a high-level action plan and to include key performance indicators and a list of outputs for the next five years, taking into account available financial and human resources, for consideration by the Assembly at its twenty-fifth session;

4. Also requests the Secretary-General to provide the Assembly with a detailed overview of the implementation mechanisms to be established, including for monitoring, evaluation and learning.
