

**TEMPLATE FOR SUBMISSION OF COMMENTS ON THE
GUIDANCE TO FACILITATE THE DEVELOPMENT OF REGIONAL
ENVIRONMENTAL MANAGEMENT PLANS (ISBA/27/C/37)**

Please fill out the form for general comments and textual proposals which your delegation(s) wish(es) to amend, add or delete, and send to: uemmr-secretariat@isa.org.jm

1. Name(s) of Delegation(s) making the proposal, including contact details:

Republic of Poland

contact: Mr Bartosz Jasiński, Ministry of Climate and Environment

bartosz.jasinski@mos.gov.pl

2. Please provide general comments, including the main rationales for the textual proposals.

The management tools as well as management measures established at areas or sites in need of special protection along with their protection zones in areas covered by contracts may result that in the most prospective areas for the contractor will be covered by these zones. Therefore, contractors should be provided with a compensation mechanism that will compensate for the areas “lost” in this way.

3. Kindly provide specific textual proposals in table below, using the “track changes” function in Microsoft Word. Please only reproduce the parts of the text that are being amended or deleted.

Specific Textual Proposals	
Relevant provision in document ISBA/27/C/37 (Page and paragraph number)	Proposed amendment(s)/addition(s)/deletion(s)
Appendix General template for the development of regional environmental	VIII. Management measures This section should include subsections on area-based management tools and other management measures. The first subsection is focused on the different categories of area-based management tools as well as management measures to be applied to individual categories of such tools <u>and compensation mechanism</u> . The second subsection is focused on other measures, including non-spatial

management plans, VIII. Management measures, page 11/11	measures, to be applied at the regional scale and the scale of contract areas.
