

ISA 29th Session, Part II – Reading of the Draft Consolidated Text

Oral Statement by the Federal Republic of Germany

Delivered in July 2024

Regulation 37 - Training Plan

We would like to make a general point, in relation to **paragraphs 1 and 2** but that is also relevant to a number of other draft regulations: We suggest harmonising the language throughout the regulations on how we refer to Standards and Guidelines. We would strongly suggest that all relevant draft regulations read *“in accordance with the relevant Standards”* and *“taking into account the relevant/applicable Guidelines”*.
