We continue to believe that this regulation duplicates Part XI on inspections and so should be deleted except to state, "The Council or Compliance Committee may request an audit of the Contractor's records, which shall be undertaken at the Contractor's sole cost, by an independent auditor approved by the Council."

We believe this DR75 and its alignment with the ISA's general inspection and compliance regime, needs more consideration. A financial audit, and an inspection of facilities or books, are separate functions, carried out by different types of professionals and generally with different approaches, objectives and methodologies. Whilst the ISA Inspectorate may include forensic economists, and may include within its scope financial monitoring, we've not heard this proposed before, and it may need further discussion. In the meantime, we consider it would be better to have a distinct record audit requirement in this section of the regulations. And then to cover access to facilities, equipment, records etc. for inspection and compliance assurance purposes separately in Part XI. So, these aspects should be removed from this regulation, to avoid duplication.
