This session of the Council will build upon the significant work undertaken during Parts I and II of the twenty-ninth session, primarily focusing on advancing negotiations related to the draft exploitation regulations. Crucially, the main bodies of the Authority will also dedicate their efforts to collaboratively establishing a robust and transparent process for the Authority’s evaluation and approval of applications for plans of work for exploitation, acknowledging the importance of this process while the full exploitation regulations are being finalized.

The Delegates handbook before you is designed to be a valuable resource for all participants, offering essential information to support the efficient conduct of our meetings. I am confident that this edition will be informative and will contribute to the success of our deliberations.

I look forward to working alongside you all and extend my best wishes for a productive and impactful session.
